

Table S4. Maternal Comments and attitudes towards Jaundice Mobile Monitoring APP of intervention group.

Variables	N (%)
Convenience ^a	
Very inconvenient	17(2.9)
Not very convenient	44(7.6)
Fairly convenient	188(32.4)
Relatively convenient	198(34.1)
Very convenient	133(22.9)
Credibility ^b	
Not credible	14(2.4)
Not very credible	50(8.6)
Fairly credible	220(38.0)
Relatively credible	179(30.9)
Very credible	116(20.0)
Willingness to recommend to those in need ^b	
Not recommended	14(2.4)
Not very recommended	61(10.5)
Fairly recommended	214(37.0)
Relatively recommended	168(29.0)
Highly recommended	122(21.1)
Necessity for widespread promotion ^b	
Very unnecessary	15(2.6)
Not very necessary	56(9.7)
Fairly necessary	299(51.6)
Relatively necessary	76(13.1)
Very necessary	133(23.0)
Satisfaction ^b	
Very dissatisfied	19(3.3)
Not very satisfied	45(7.8)
Fairly satisfied	292(50.4)
Relatively satisfied	98(16.9)
Very satisfied	125(21.6)

^a 25 mothers were missing data.

^b 26 mothers were missing data.
